## SKILLS

- **Languages:** Java, JavaScript, C
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB, Excel, Tableau
- **Soft Skills:** Problem-Solving Skills, Team Player, Adaptability

## TRAINING

### Summer Training: GeeksForGeeks

Jun - Aug 24

- Completed a self-paced course on Data Structures and Algorithms, gaining a solid foundation in core computer science principles.
- Applied key DSA concepts such as Linked Lists, Trees, Backtracking, Sorting & Searching, and Graph Algorithms through hands-on coding exercises, enhancing problem-solving abilities.
- Engaged in coding challenges and quizzes throughout the course, reinforcing theoretical understanding with practical application.
- Developed a Sudoku Solver project in Java using the Backtracking Algorithm, demonstrating algorithmic thinking and effective problem-solving skills.

## PROJECTS

### Agriculture Tractor Services

Jan – Feb 25

- Developed a web-based platform for agricultural tractor services, connecting farmers with service providers.
- Enabled farmers to book tractor services based on their preferred service options.
- Implemented an admin dashboard to manage service providers, bookings, and customer inquiries.
- Integrated features such as cost estimation, driver daily work tracking, and customer reviews to enhance transparency and efficiency.

### Edutainment (Major Project)

Jan - May 23

- Combined education and entertainment to create an engaging learning experience.
- Incorporated educational resources such as videos, books, and interactive lessons for effective learning.
- Offered entertainment features like movies, music, and web series for user enjoyment.
- Delivered the latest updates and insights on various sports to ensure a well-rounded edutainment experience.

### Hospital Management System (Minor Project)

Aug - Dec 22

- Designed and developed a hospital management system website.
- Enabled users to book doctor appointments nationwide based on their state.
- Facilitated medicine ordering and provided health suggestions based on user concerns.
- Assisted users in locating nearby blood donation camps to simplify the process of donating blood.

## CERTIFICATES

- Completed Front End development course on Simplilearn Mar – Apr 25
- Completed Data Structures & algorithms - Self-Paced (Java) by GFG Jun - Aug 24
- Completed C++ course On Coursera Jan – Feb 24

## ACHIEVEMENTS

- Won 1<sup>st</sup> place in the 'One India, One World' event for representing South India through dance. Apr 23
- Won a prize for participation in the Bhagavad Gita recitation competition. Nov 17

## EDUCATION

- **Lovely Professional University** Punjab, India  
*Bachelor of Technology - Computer Science and Engineering* August 2023 - present
- **Lovely Professional University** Punjab, India  
*Diploma; CGPA: 8.20* August 2020 - May 2023
- **Zilla Parishad High School** Jakranpally, Nizamabad  
*Matriculation; Percentage: 95.5%* June 2019 - March 2020
